HONGKONG, MONDAY, JUNE 14, 1880. Most of our resders who take an interest in American political affairs have been anxiously looking for a telegram which would convey the result of the Republican nomination for the Presidency, made at the Chicago Convention Per Japan and Moray, at 2.30 p.m., on on the 2nd instant. No news reached the public until to-day, when, in answer to a private telegram, the following was received and kindly placed at our disposal :- "The Republican Convention have chosen Garfield a their candidate." The great importance attached to this announcement is this: that the candidate nominated by the Republican Convention may safely be accepted as the President-elect of the United States for the next term of three years. Whether General Grant has declined to stand, or whether the Republican party felt itself safer to evade the question of electing a great man too often (however popular that man might be), cannot be definitely stated. At all events, we have every reason to believe that in nominating General James A. Garfield, of Ohio, to this lofty position, the Convention have shown a wise discretion. The President-elect is at present the leader of the Republican party in the Lower House of Congress, and was elected last winter to succeed Senator. Thurman, whose term expires on 4th March 1881. He is better known to Americans than he is to outsiders; but from all we can gather he has been selected more for his real ability and sentiment of the hour or any extreme party tactics. He is described as one of the most accomplished public men in the States, and one who holds a very high position in the estimation of all good, loyal Americans. A staunch upholder of the Union, he left his profession as a lawyer at the outbreak of the War, and having raised a regiment of his own, he soon by dint of hard fighting won distinction in the field. Since that time he has gained the higher distinction of universal esteem; and even those Americans who had fondly hoped to see General Grant again at the head of official affairs, admit that General Garfield is the next best man for the post.

Pasha? Residents who can remember the intense interest that was felt here in Hongkong when the "Ever-Victorious Army, under Gordon, was defeating the Taiping Rebels hip and thigh, and can call to remembrance the thrill of manly pride felt by his nationals in the young soldier when he, like Achilles, retired from the field, in consequence of the treachery of the Imperialists towards the Taiping Wangs,-will be able to realize the feelings of unbounded confidence felt in Colonel Gordon by the Chinese officials and people. There is, besides, no other man in existence who has done more for the reigning Tartar dynasty of Tsing than Colonel Gordon: for, however much may be said for the efforts of the native Imperialist leaders, the successful issue of the prolonged struggle against the Taiping power was mainly due to the great abilities and personal influence of Mujor Gordon. That he has started for China. therefore, so soon after we hear of his refusal of office in India, is a very interesting item of intelligence. Gordon Pasha has for many years been following the natural bent of his genius for ofgranization and adventurous life near p.u. -- Anotion of Household Furniture, the Equitorial Lakes of Africa, and de at the residence of Miss Lamb (by latterly as Governor, under the Khedive, of the whole of the Soudan. It is just possible; however, that he may not be coming to join she Chinese service at all ; and prophecies had better be held over until more is known as to the intentions of

Christian Advocate (U.S.) Trubner's Oriental Record contains the following notice of the China Review:-" This is the title of a publication, the first number of which has lately reached us from Hongkong, where it has been set on foot as in some respects a continuation of Notes and Queries on China and Japan, the extinction of which useful serial a year or two ago has been much regretted in Europe as well as in China. The present publication, judging by the number now before us, is intended to occupy a position, as regards China and the Road. neighbouring countries, somewhat similar to that which has been filled in India by the Calcutta Review. The great degree of attention that has been bestowed of late years upon the investigation of Chinese literature. aptiquities, and social developments, to say nothing of linguistic studies, has led to the accumulation of important stores of information, rendering some such channel of publicity as is now provided extremely desirable: and contributions of much interest may fairly be looked for from the members of the foreign consular services, the Chinese Customs' corps, and the missionary body, among whom a high degree of Chinese scholarship is now assiduously cultivated, and who are severally represented in the first number of the Review by papers highly creditable to their respective authors. In a paper on Dr. Legge's She King, by the Rev. E. J. Eitel, to which the place of honour is deservedly given, an excellent summary is presented of the chronological problems and arguments involved in connexion with this important work. Some translations from Chinese novels and plays are marked by both accuracy and freshness of style; and an account of the career of the Chinese poet-statesman of the eleventh century, Su Tung-p'o, by Mr. E. C. Bowra, is not only historically valuable, but is also distinguished by its literary grace. Beside notices of new books relating to China and the East, which will be a useful feature of the Review, if carried out with punctuality and detail, we are glad to notice that "Notes" and "Queries" are destined to find a place in its pages also. It is to be hoped that this opening for contributions on Chinese subjects may evoke a similar degree of literary zeal to that which was displayed during the lifetime of its predecessor in the field, and that the China Keview may receive the support necessary to insure its continuance. The publication is intended to appear every two months, and will form a substantial octavo magazine.

THE CHINESE MAIL.

This paper is now issued every day. The subscription is fixed at Four To VICTORIA GAP (TO LEVEL OF UMBRELLA Dollars per annum delivered in Hongkong, or Seven Dollars Fifty Cents including postage to Coast ports.

It is the first Chinese Newspaper ever issued under purely native direction. The chief support of the paper is of course derived from the native community, amongst whom also are to be found the guaranters and securities necessary to place it on a business andlegal footing.

The projectors, basing their estimates upon the most reliable information from the various Ports in China and Japan,from Australia, California, Singapore, Penang, Saigon, and other places frequented by the Chinese, - consider themselves justified in guaranteeing an ultimate circulation of between 3,000 and 4,000 copies. The advantages offered to advertigers are therefore unusually great, and the foreign community generally will find it to their interest to avail themselves of

The field open to a paper of this description-conducted by native efforts, but progressive and anti-obstructive in tonein almost limitless. It on the one hand commands Chinese belief and interest while on the other deserves every aid be given to it by foreigners. Like English journals it contains Editorialswith Local, Shipping, and Commercial News and Advertisements.

Subscription orders for either of the above may be sent to GEO. MURRAY BAIN. China Mail Office.
